| ITEM NO. | PDU08-1U-M7-K1      | SERIES                             | PDU08                   |
|----------|---------------------|------------------------------------|-------------------------|
| No.      | ITEM                | DETAILS DESCRIPTION                |                         |
| 1        | Shell material      | Aluminum                           |                         |
| 2        | Shell color         | Black                              |                         |
| 3        | Shell length        | 436.8mm (without mounting bracket) |                         |
| 4        | Mounting length     | 465mm                              |                         |
| 5        | Dimension           | 486.80 x 45 x 45 mm                |                         |
| 6        | Cable specification | 3 core 1.5mm, 2.0 meter            |                         |
| 7        | Bracket install     | Horizon or vertical mount          |                         |
| 8        | On off power switch | Yes                                |                         |
| 9        | Meter reading       | -                                  |                         |
| 10       | U number            | 1U size                            |                         |
| 11       | Specification       | Description                        | Power distribution unit |
|          |                     | Model no.                          | PDU08-1U-M7-K1          |
|          |                     | Input way                          | UK 3 Pin                |
|          |                     | Output way                         | 7 ways universal SSO    |
|          |                     | Rated current                      | 13A                     |
|          |                     | Rated voltage                      | 230V                    |
|          |                     | Inner contact way                  | Copper bar              |
|          |                     | Cable fixed mode                   | -                       |
|          |                     | Max output power                   | 2990W                   |
